BTP & BACKEND: SAP CAPM, Node.js, CDS modeling, CAP service handlers, Custom actions / functions, OData V4, SAP HANA Cloud, HDI containers, HANA SQL, SQLite, SFTP

FRONTEND: SAPUI5, Fiori Elements, Fiori Freestyle, XML Views, MVC, JavaScript, HTML5, CSS3, Fiori Launchpad, Smart Controls, Flexible Column Layout, VizFrame Charts, e-Invoice compliance

INTEGRATION & DELIVERY: SAP CPI overview, REST APIs, OData V2 / V4, XSUAA, OAuth 2.0, AppRouter, Role collections, Destination Service, Cloud Foundry, MTA, Job Scheduler, SAP Build Work Zone, CI/CD concepts

TOOLS & PROGRAMMING: SAP Business Application Studio, SAP Web IDE, VS Code, Git / GitHub, JavaScript, Python, C, C++, SAP ABAP / DDIC (working knowledge), RAP (basic knowledge), SAP Gateway

SAP PROJECT EXPERIENCE

GO MOBI — Master Data & Financial Transaction Ingestion Engine

Technical Consultant | SAP S/4HANA Public Cloud implementation

- A microservices-based SAP BTP integration solution connecting Mobi transaction portals to SAP S/4HANA Public Cloud for master data and financial transactions.
- Designed SAP HANA Cloud data models for raw transactions, consolidated transactions, merchant master data and file-processing and audit logs.
- Developed CSV ingestion with file-level and row-level validation, multi-layer checks, duplicate detection, idempotency and automated error reporting.
- Implemented atomic all-or-nothing batch persistence and consolidation of thousands of daily payments into balanced multi-line accounting journal entries for multiple company codes and currencies.
- Exposed OData V4 services and custom actions with server-side filtering for SAP CPI to trigger SAP S/4HANA Business Partner and Journal Entry APIs, with two-way callbacks to update document and BP numbers and processing status.
- Worked with CAP services and HANA HDI containers across DEV, QA/UAT and production, including large-volume performance and security testing.

TSI — Enterprise Financial & Operational Bulk Upload Framework

Technical Consultant | SAP S/4HANA Public Cloud implementation

Applications: Fixed Asset Acquisition, Asset Retirement, Asset Master Change, WBS Create / Upload / Change, Purchase Order, Service Entry Creation, Service Entry Sheet, GRN, Vendor Payment, Customer Collection, Customer-to-Customer, Vendor-to-Vendor, Customer-Vendor, PNB Annexure, GIGR

- A suite of Fiori/UI5 loader applications covering financial and operational processes, including assets, WBS, purchasing, service entry, goods receipt and payments.
- Built a custom Purchase Order Bulk Loader on SAP BTP using Fiori Elements in SAP Business Application Studio.
- Built template downloads, template-based field mapping, mandatory-field and data-type checks, date and number conversion, business rules, multi-sheet uploads and dependent-record validation.
- Converted uploaded Excel data to SAP-compatible OData and REST payloads, filtered valid and invalid records, and supported atomic submission of valid entries with actionable error logs.
- Used JSON/OData models, controllers, validation managers and export utilities for reusable services and components handling validation, transformations, responses, audit trails and Excel export.
- Troubleshot payload mismatches, validation failures, HTTP and SAP backend errors, and deployed to Cloud Foundry with Fiori Launchpad tiles, catalogs and target mappings.

ARYA — Custom Bank Balance Report

Technical Consultant | SAP S/4HANA Public Cloud support

- A custom bank balance reporting application using a Fiori Elements List Report.
- Developed a custom bank balance report using SAP Fiori Elements List Report in SAP Business Application Studio.
- Designed custom CDS views in SAP S/4HANA Public Cloud with fields, UI annotations and opening and closing balance logic.
- Exposed OData with filters on company code, G/L account and posting date; performed integration testing, data validation and performance optimization.
- Deployed to SAP BTP Cloud Foundry and configured Fiori Launchpad tiles, catalogs and target mappings.

DYNAMIC SOLUTIONS — BRUNEI — Employee Benefits & Management Applications

Technical Consultant | Support project

Applications: Leave Allowance, Education Allowance, Conveyance Loan, Passage Meeting, Passage Allowance, Housing Loan, Housing Rental, Employee Management

- Eight SAPUI5/Fiori applications supporting employee benefits, allowances, loans and employee management for Dynamic Solutions in Brunei.
- Developed and supported eight SAPUI5/Fiori applications using MVC, XML views and fragments, reusable components and SAP Fiori design principles.
- Integrated SAP Gateway OData, JSON/OData models, CRUD, routing, navigation and dynamic data binding.
- Configured Fiori Launchpad catalogs, groups, tiles and target mappings and activated ICF nodes and Gateway services.
- Deployed across SAP ABAP Repository and SAP BTP Cloud Foundry and worked on enhancements, change requests, debugging, performance tuning and production support with functional consultants and business users.

MOLDMASTER — SAP Fiori My Inbox Extension

Technical Consultant | EHP upgrade and support

- An SAP ECC EHP8 upgrade and support project involving SAP Fiori My Inbox.
- Configured and activated the standard SAP Fiori My Inbox, OData Gateway services and ICF nodes in SAP ECC EHP8.
- Extended the standard UI5 application with a custom Approve action and backend approval workflow logic.
- Configured SAP Task Gateway integration, Fiori Launchpad catalogs, groups, tiles and target mappings, and PFCG role authorizations.
- Performed end-to-end testing, troubleshooting and performance tuning for workflow item processing across system landscapes.

CERTIFICATIONS

- SAP Certified - Backend Developer - SAP Cloud Application Programming Model
- SAP Certified - SAP Fiori Application Developer

- SAP Certified - SAP Build Developer
- SAP Certified - SAP Generative AI Developer

ADDITIONAL TRAINING & COURSES

- SAP Fiori, UI5, Gateway, OData for Beginners
- SAP CPI: Overview of SAP Cloud Platform Integration
- Technical Consulting Virtual Internship
- Complete C, C++, C#, Java and Python Bootcamp
